**COUNCIL ON  
CHIROPRACTIC  
PHILOSOPHY**

---

*BRIDGING THE GAPS OF  
UNDERSTANDING*

# WHY PHILOSOPHY?

Our Chiropractic Philosophy forms the basis for how you approach each case. It directs your thought process and provides an avenue to assimilate today's science into your patient care, making you the best Chiropractor you can be.

Our philosophy is not merely the study of abstract principles. It encompasses an understanding the processes of health and its absence—dis-ease (incoordination).

## WHY ME?

Many programs may offer momentary excitement, but by Monday morning nothing remains. It is our goal to have programs, events and membership benefits designed for instant implementation in your practice.

We offer seminars and coursework designed to give you the tools to be among the best in the profession. Our annual Conference will stimulate you to bring together concepts under a Chiropractic understanding that you can begin putting to work for you tomorrow.

You will find new innovative ways to:

- ✓ educate patients to understand the Chiropractic premise
- ✓ bring an excitement back to practice
- ✓ apply scientific developments into your patient care

- ✓ develop your skills to become the Chiropractor you know you can be
- ✓ learn science and patient care models that you can apply today
- ✓ be part of a community of DCs with your sense of purpose and commitment to the profession

## WHAT TYPES OF SEMINARS?

Too often seminars don't make the information applicable to our practices. We are left with a sense of excitement at best. You might attend a seminar through our organization on neurology using similar information. The difference lies in our focus on making the information Chiropractic as well. The same is true of our seminars on philosophy, adjusting, physiology, pediatrics, etc. As practitioners we need information we can use and that is a hallmark of our Council's efforts for you.

*Two Programs...*

*One Purpose*

## THE ONE-YEAR PROGRAM

The first year of the Diplomate is actually a stand-alone program of its own. Like the Diplomate, it is offered through sanctioned Chiropractic colleges. It entails 100 hours of live and online coursework.

The course is designed to fit your busy lifestyle and enhance your practice by solidifying your understanding through philosophy. The culmination of this program is the writing of a thesis. The thesis may be on any topic in Chiropractic philosophy. There are currently over 100 graduates from across the globe. This course has received glowing endorsements from its graduates without exception!

## THE DIPLOMATE (DPhCS)

The crown jewel of the Council is the 300 hour Diplomate in Chiropractic Philosophic Standards. This program has produced some of the finest philosophic minds in the profession. This course is an intense study of Chiropractic theory and its application to practice and patient care.

The pride these graduates show in their depth of understanding of how to apply our unique philosophy is well earned. This program is the only one of its kind and is lauded by both practitioners and educators as the preeminent postgraduate course in Chiropractic study. Contact the Council Chair by email (see back) or call the ICA today for more information.

## HOW DO I GET INVOLVED?

It is really very simple. To be a member of the Council *you do not need to be an ICA member*. You only need to fill out the short form on the reverse of this flap and fax or call it in to the numbers on the back. We look forward to your involvement!
