PATIENT INSURANCE FORMS

POLICY

The Chiropractic Center does not accept assignment on insurance but will gladly print a statement of charges that the patient may send to their insurance company for possible reimbursement. The patient may obtain statements from the front desk staff.

Note: Student interns do not have the authority to sign insurance forms and may not fill out insurance forms for patients.

Because insurance coverage varies widely from policy to policy, interns may never promise a patient insurance reimbursement for Chiropractic Center services.

The Chiropractic Center does not accept:

- Personal injury cases in which future litigation is pending (Note: Student interns are not qualified to testify in court)
- Medicare or Medicaid
- Workers' compensation
