EMERGENCY CARE PROCEDURE

POLICY

In the event a patient presents a problem requiring emergency first aid, the following procedures shall be followed:

1. Emergency first aid procedures, as described by the American Red Cross, is administered by a qualified staff member on duty.

2. The campus security and safety manager is notified.

3. Local emergency or rescue squads are informed to transport the patient to the desired emergency care facility.

4. In the event the patient is unable to verbally request a facility of their choice, they will be transported to the county hospital emergency room.

5. The employee who witnesses the incident will fill out an Accident/Emergency Report and forward it to the dean of clinics and the campus security and safety manager.
