SCIENTIFIC PUBLICATIONS AND PRESENTATIONS

POLICY

All scientific publications and presentations by Sherman faculty members that are experimental in nature must have been approved by the Research Committee, and must bear an inscription indicating that the work was completed at, and supported by, Sherman College of Chiropractic.

Manuscripts that are not experimental in nature, such as reviews of literature, opinions, or editorials, must be submitted to the Director of Research for approval prior to submission for publication.

Collaborative projects involving participation with external organizations and bearing the name of Sherman College of Chiropractic shall be approved by the Director of Research prior to submission for publication.
