Sherman College of Chiropractic 2023 Campus Safety and Crime Report

SUMMARY OF THE CLERY ACT

The Clery Act is named in memorial to Jeanne Clery, a student at Lehigh University, who was murdered by an individual who broke into her campus residence. Although the assailant received the death penalty, Jeanne's parents soon discovered that there was not a national law requiring colleges and universities to have a standardized way to report crime. Because of this situation, parents like them were unable to decide about how safe their child's "home away from home" was. The purpose of the information in this publication is to comply with requirements set forth under the 1998 Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (20 USC § 1092(f)), previously known as the Student Right-to-Know and Campus Security Act of 1990, as amended.

The act is commonly referred to as the "Clery Act," and this report, commonly called the "Clery Report." Portions of this report are also provided in compliance with requirements of The Campus Sexual Violence Elimination (SaVE) Act (20 USC § 1092(f)), a part of the Violence Against Women Reauthorization Act of 2013 (VAWA), passed as a complement to the Title IX Guidance by the U.S. Department of Education's Office for Civil Rights.

This report is updated on an annual basis and is disseminated to all college students, faculty, staff, and interested individuals via web distribution. Upon request, Sherman College of Chiropractic Campus Security will provide this report in printed format to any applicant for enrollment or employment, as well as to any current student, faculty, staff, or interested individuals. Contact Sherman College Campus Security for more information.

The Clery Act requires all institutions of higher education which receive federal financial assistance to produce an Annual Security and Fire Safety Report, which may be reviewed by current and future students and employees. Under the Clery Act, the college is required to:

1. Collect, classify, and count crime reports for specific types of crimes that occur within three geographical categories known as campus property, non-campus property, and public property.
2. Submit those crime statistics and statistics related to fires that occur in on-campus student housing facilities, to the United States Department of Education by the first of October each year.
3. Publish an Annual Security and Fire Safety Report compiled of the above listed statistics and include University safety-related policies making it available to be reviewed by current and future students and employees.
4. Maintain and make available to the public a daily crime log that catalogs alleged criminal activity occurring on-campus.
5. Issue "emergency notifications" and "timely warnings" through campus alerts to the University community in a timely fashion stating that there is an immediate or ongoing threat to the health or safety of the college community.

SAVE A LIFE! DON'T DRINK AND DRIVE!

DRUG AND ALCOHOL POLICY

Drug and alcohol abuse are significant threats to the safety and security of any community and college campuses are not exempt. Sherman College of Chiropractic (SCC) enforces a strong anti-drug and alcohol policy to prevent the illegal use of drugs and the abuse of alcohol on or off campus. SCC also complies with the Drug-Free School Act of 1989, which requires college officials to turn over to authorities, for arrest and prosecution, any person who illegally uses drugs.

The complete Drug and Alcohol Policy is distributed to new students each quarter. Copies are available at any time from the student services department. The policy prohibits the unlawful manufacture, possession, use, sale, or distribution of controlled substances, alcohol, and drug paraphernalia. Penalties may include expulsion and criminal prosecution.

The Office of Student Affairs provides a variety of services aimed at preventing drug and alcohol abuse. In addition to educational programs and assemblies, assistance is provided to any student, faculty or staff member concerned about drug or alcohol abuse. OMNILERT

Emergency Text and Email Messaging System

To continue improving campus safety and timely warnings in cases of emergency or campus closures, Sherman College offers an emergency mass notification messaging system, Omnilert, available to faculty, staff, and students.

The system sends a text and/or email message to all enrolled cell phones and email accounts in the event of an emergency at the college. The system also has the capability to deliver push notifications to social media accounts. Omnilert improves the college's emergency communications. The system is only used during an emergency or unexpected closing of the college.

About the Service

The Clery Act (formerly The Higher Education Act) requires institutions to inform their respective campuses of conditions posing a threat to life, safety, and security so that members of the campus community can take necessary precautions to protect themselves.

Student and employee contact information is automatically added to the Omnilert system. This information is ONLY for use as described above and is not available to third parties.

As part of Sherman College's emergency preparedness planning, the college's students, faculty, and staff will receive emergency text and email message alerts as a method of emergency notification. The college employs text and email messaging as another technological solution for communicating swiftly and effectively with our campus community in case of an emergency on campus.

As part of the service, you will receive a test message at least quarterly to ensure that the service is functioning as expected. The college will only use the service to send emergency/ life threatening or unexpected campus closure alerts.

Available to all Students, Faculty, and Staff

All students, faculty, and staff are automatically enrolled in this system through phone and email data contained on college student or human resources systems. Omnilert sends a text and/ or email message alert to ALL cell phones, computers, iPads, etc. in the event of an emergency at the college. The system is only used during a safety emergency or unexpected closing of the college.

Subscriber Information Updates

While the Omnilert system data will be reviewed and updated quarterly, it is the responsibility of each student, faculty/staff member to ensure that all emergency contact is current and updated at the time of any change. The Omnilert system is only as good as the data entered into it.

Notification may be made by any of the following methods:

- Public Address
- E-mail alerts
- Text alerts
- Warnings on Campus Television monitors
- Verbal notification by representatives of Campus Security, or Student Affairs

If any student, faculty member, or staff member has reason to believe there is a dangerous situation or significant emergency on campus, he or she should immediately report it to Campus Security at 864-578-8770 ext. 333; or 864-316-7576; or 864-680-9802 (Security and Safety Manager cell phone)

If a weather event causes a dangerous situation or significant emergency on the Sherman College campus, the Vice President for Student Affairs or designee will make a notification to campus community.
